## Worth a Look

### Anastasia Beverly Hills

Anastasia introduces *Youthful Synergy™ Color*, unique clinically tested makeup designed to firm, smooth, and illuminate the appearance of skin while also soothing, softening, and hydrating. The Beauty of Anastasia combined with the science of skin care has resulted in products that help keep the eye area looking youthful while maintaining elasticity. This Fall Anastasia will launch both a new warm and cool set of her famed *Illumin8 with Youthful Synergy™ Complex Eye Shadow Palette*.

### BARIELLE®

Fungus and bacteria from sweaty feet or unsanitary manicures/pedicures can make you want to hide your toes in the sand and stuff your hands deep into pockets. Barielle's antifungal solution, *Fungus Rx* helps to keep your nails looking perfect all summer long. Unlike most over-the-counter anti-fungal solutions that have brush-on applicators, which actually promote the spread of further infection, *Fungus Rx's* dropper-tip application system ensures hygiene.

### BonVital® , Inc.

Bon Vital *Hand Cleanser* is made with the highest quality ingredients, including aloe vera, vitamin E, and moisturizers. Our moisturizing formula provides a convenient, healthy, and safe way for professionals to cleanse hands before and after treatments, without drying the skin; no rinsing or towels needed, leaves hands soft and smooth, with no stickiness or residue. Gentle on skin, and great for all skin types. 800-253-6466, [www.bonvital.com](http://www.bonvital.com)

### De La Terre Skincare®

*Sun Diffuser* is the perfect tool to equip your skin against cell damage, hyperpigmentation, and collagen breakdown. Herbal extracts boost the production of a network of protective enzymes that defend cells against UV damage. Embrace the sun's benefits this summer, and a holistic approach to health and longevity.

### Dectro International

Over the years your clients have developed wrinkles, age spots, scars, and other little imperfections, which they would love to see disappear. The all-new *Compact Peel* microdermabrasion device combines high performance and affordability, making it an ideal purchase. The easy-to-use *Compact Peel* system features a compact design, as well as anti-humidity and anti-residue controls, and leads to visible results. After only one treatment, your clients will notice a major improvement in their complexion and skin quality.
